Half Day Pyramids (Pyramids + Sphinx)

Morning early departure to visit one of the seven wonders of the world.

(1) The great Pyramid

Was built by King Cheops (IV dynasty) circa 2690 B.C., it covers an area of 13 aeries with a high of 146 meters has now become 137 meters after the erosion of its summit, the total volume of its size is 2.5 million cubic meters.

The ancient Egyptians aim building the Pyramids was that they should seve as sepulchers for their pharaohs to preserve their bodies for they believed in resurrection and immortality.

(2) The second Pyramid

Was built by King Chefren, the son of Cheops, it reaches 136 meters, part of the Pyramid still bears traces of the outer casing which covered it.

(3) The third Pyramid

This smaller Pyramid was built in the region of "Menkaura" or "Mykerinous" the son of Chefren - its height is 62 meters, the lower wall of this Pyramid is encased in a layer of granite.

(4) The Sphinx

By carriages or a camel or horse back you will visit the Sphinx. A mythical statue with body of a lion and the face of man, the Sphinx measures 70 meters in length and 20 meters in height. Scholars believe that the face of the Sphinx closely resembles that of Chephren.

After that return to your hotel.

City Tour by night

Night time in Cairo is a lyrical world, bathing in a dreamy lake of lights and inspiring shadows.

Night time in Cairo combines the magic of the East with the arts of the West to offer the visitors a night life brimful with every type of enjoyment and beauty.

Your city tour starts late afternoon at Cairo tower that is considered one of Cairo famous and well known landmarks. It is standing in the city center. It is about 185 meter high.

Passing by Tahrir Square then to Abdeen Palace which is considered one of the most sumptuous palaces in the world in terms of its adornments, paintings, and the large number of clocks scattered in the parlors and wings, most of which are decorated with pure gold. Built by el khedwe Ismail to become the official government headquarters instead of the citadel of Cairo. This palace was used as well for official events and ceremonies.

The upper floors contains the former living quarters of the royal family, the lower floor contain silver museum, the arm museum, the royal museum and the presidential gifts museum. Abdeen palace was called as it was built on the debris of a house owned by Turkish prince Abdeen Bey.

By the way of Opera square to Salah Salem street where you will see Sadat tomb. Then the path to Cairo Fatimid Town which was walled with many gates. Three of these still stand: Bab Naser (victory gate) in the north. The northern gate was built in 1087 by the Armenian general Badr el Gamali, display much foreign influence in their architecture entrance to the towers and walls is through the next door. Mosque of al Hakim and reused pharaonic blocks and Napoleonic inscriptions can be seen inside. Bab Futah and Bab Zuweila were connected by a main street al Qasab ,Sharaia street and al Muzz li din follows the same route.

Then passing by khan el khalili bazaar which contains a lot of shops display a wonderful collection of brassware, rich textiles and other attractive oriental products.

Your tour finishing at a café for drinking a soft drink.

Finally return to your hotel.
